Outreach

Our expert team can provide specialist support, tailored to your provision, to help overcome the barriers that result in exclusions.

We believe that a specialist education can transform the lives of autistic children and young adults. Autism is lifelong, and we know early intervention and the right support have a lasting impact. That's why we have developed a range of outreach, training and consultancy services which utilise the knowledge and expertise of our highly skilled staff to deliver life changing outcomes for autistic children and young adults in other services and at home. Our approach is person-centred and tailored to meet individual needs.

With increasing pressure on schools to achieve outstanding results, and for Local Authorities to deliver against budgets, it is not surprising that many schools are faced with significant challenges in supporting learners to achieve their desired outcomes and successfully transition to the next stage in their education.

“The Outreach service was of excellent standard. We couldn't have asked for a better staff member to support us. He made such a difference with the services that he was working in.”

Outreach service user

Our Outreach Team can provide:

- Group INSET training on autism and behaviour analysis
- Specific 1:1 support for a staff member or team working with a learner
- Support on behaviour, including creating individual behaviour plans
- Support for the wider team around the child, including parents/carers

Our Outreach Team is here for:

- Local Authorities (Special Schools and Mainstream settings)
- Nurseries
- Maintained Schools and Academies
- Independent Schools
- Colleges and Further Education settings

Resources

From person-centred planning tools, to starting school resource packs, to examples of how to write a visual story, we have a range of free resources available on our website. Take a look today beyondautism.org.uk/resources/

If you have a training need that isn't covered in this booklet please get in touch to discuss it with us. We are able to tailor all of our services to suit your individual needs.

“The school would NEVER have managed half of what they have without the support of BeyondAutism”

Online Training Courses

As well as our face-to-face training offering, we have created an online learning platform for professionals who are unable to attend our in-person training. Access the platform wherever you are and work through lessons at your own pace. For more information on our online courses, visit:

beyondautism.org.uk/professionals/training/online-courses/

Introduction to autism

An online version of our face-to-face training:

- For parents - try our free version which gives an overview of autism, providing information on key topics. **Free course.**
- For professionals - content is covered in more depth designed for people supporting people with autism in a professional capacity. **£50 per user.**

Introduction to behaviour analysis

In 4 parts, this training covers the theoretical and practical elements of behaviour analysis. This course would suit professionals or parents looking for further information. **£25 per part.**

Supporting people with autism for allied health professionals

This course is designed for newly qualified allied health professionals who support people with autism. It is designed to give the participant a foundation from which to further develop their skills and knowledge. **£25 per person.**

Employability training

This course is designed for employers to learn more about autism and be able to create an inclusive working environment for people with autism. The course covers a variety of subjects from autism, to communication, to vocational assessments and reasonable adjustments. **Free course.**
