

Moving forward in challenging times

Just to be clear, WE aren't the challenge!

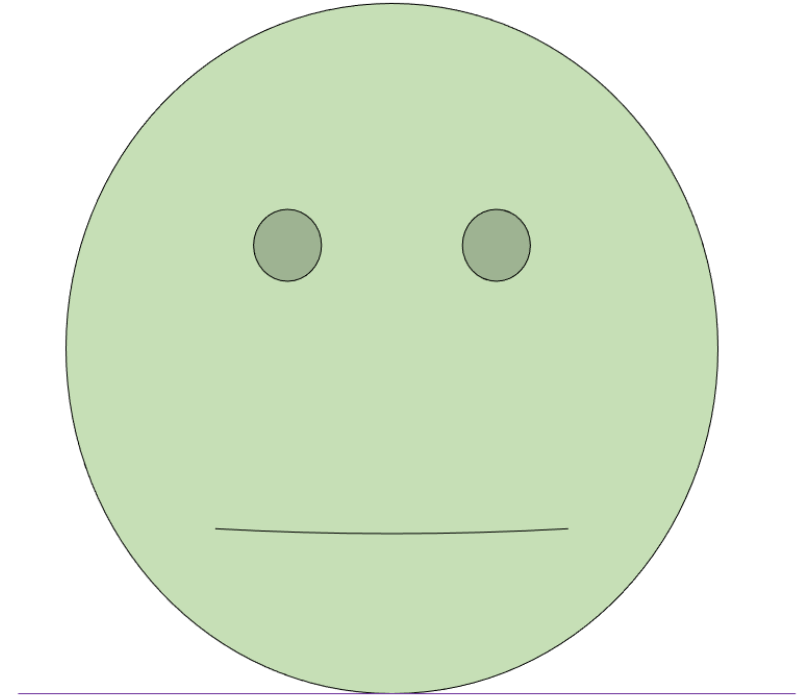

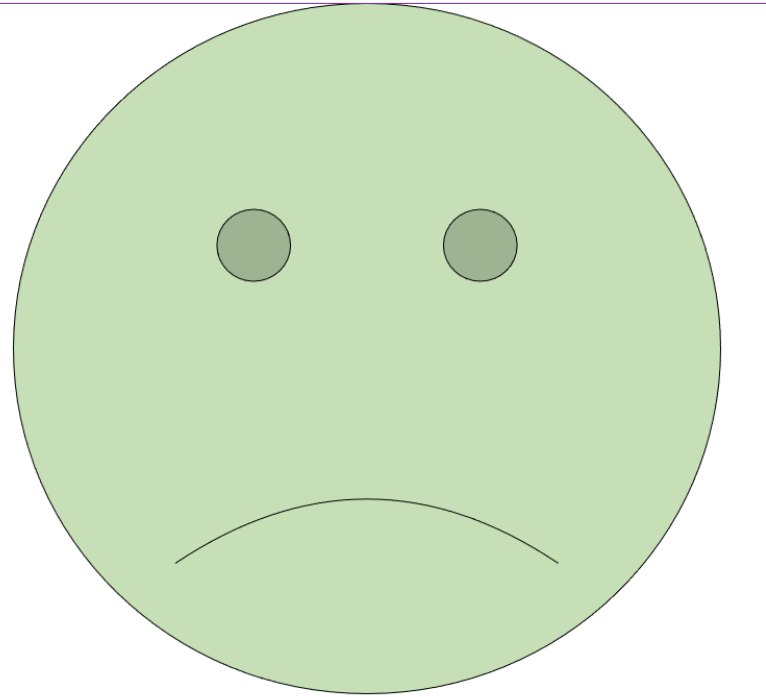

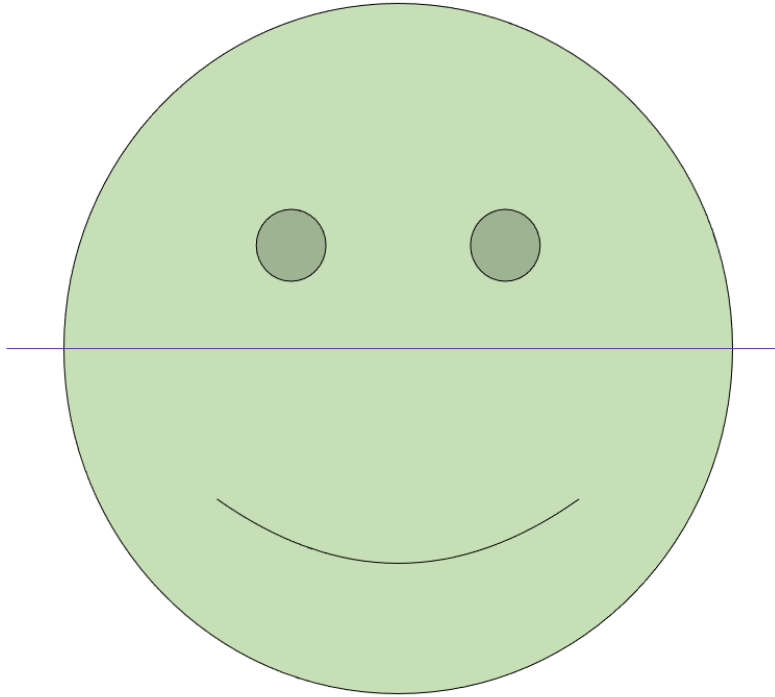

WE don't need fixing.

What we need is accessibility, inclusion and to be able to live as ourselves, and the challenge is because it requires a massive culture and mindset shift

Its important to understand what we mean by accessibility , difference & inclusion....

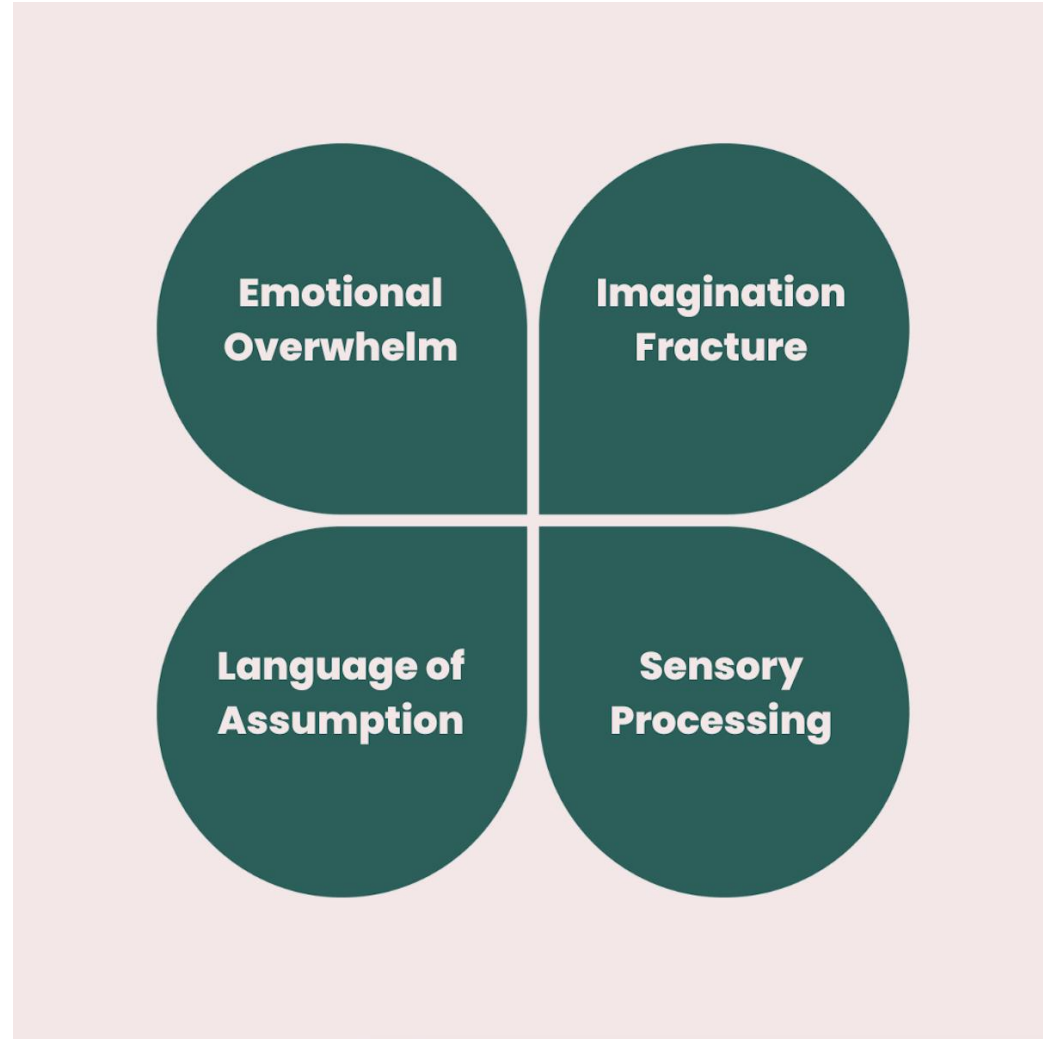

Emotional overwhelm

Accessible/Inclusive Assessments

Accessible/Inclusive information

Accessible/inclusive services, employment & communities

Culture and mindset shifts

Are YOU ready to make that change?

Thank you for listening.....
